

eviQ Education Resource Delivery Systems

eviQ education website (CMS) v Facility Learning management system (LMS)

eviQ Education resources are available via the eviQ Education website—a Content Management System (CMS) and via facility LMS. If your Australian/NZ employer has an LMS, we can provide courses to load into your system. See the differences between what each system can provide in our eviQ website CMS v facility LMS comparison table.

eviQ website CMS v facility LMS comparison table

System / Features	eviQ Education website – (CMS)	Facility's Learning Management System (LMS)
System functionality	A standard website which has no functionality to track or record any completions or progress.	An education intranet or software application for the administration, documentation, tracking, reporting and delivery of eLearning education courses or training programs. Organisation Facilitators will select courses to include in LMS
Resource access	All eviQ Education resources	Facilitator selected resources loaded into local system & participants enrolled as per local institution policies and requirements
Course certificates available	Only for a limited number of non-assessable courses	Issues by facilitators after competency assessments
Quiz results	Must print/save before closing results page	Yes
Resource currency	Latest version automatically available. Facilitators & administrators emailed re available updates.	LMS administrator loads updates into facility LMS
Progress tracking	No. However completing competency assessments & issuing certificates may be managed manually in-facility by Facilitators	Recorded and tracked by the LMS
Technical issues	Refer to our Frequently Asked Questions page in the first instance and email us at eviQed@eviQ.org.au if your query is not resolved	Refer to your Facilitator or local system administrator
